COMPANY OVERVIEW

WHO WE ARE

Cryptorafts Solutions is an AI-powered technology and digital solutions provider helping businesses build, automate, optimize, and scale their digital operations.

We combine artificial intelligence, software development, blockchain technology, digital marketing and search optimization to deliver practical technology solutions for Web2 and Web3 businesses.

01

Practical technology

Solutions designed around real business needs, not technology for its own sake.

02

AI-powered solutions

Intelligent tools and automation that reduce repetitive work.

03

Digital infrastructure

Websites, platforms and integrations built to grow with your business.

04

Transformation

Guidance for moving operations to modern digital systems.

VISION AND MISSION

WHAT DRIVES US

OUR VISION

To make intelligent technology accessible and useful for businesses of every size.

OUR MISSION

To help businesses transform ideas into practical digital solutions through AI, software development, automation, and modern technology.

06 Business dashboards

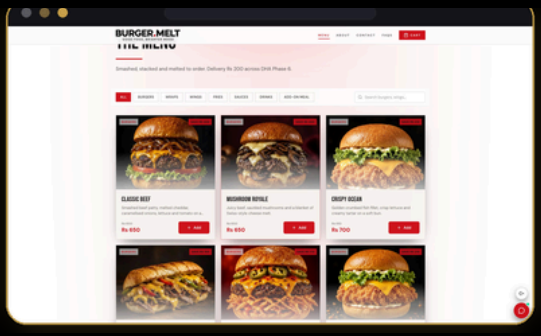

07 Customer portals

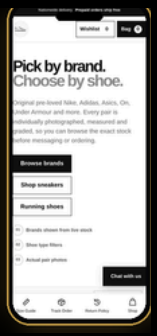

08 Mobile applications

09 API integrations

10 Software maintenance

AI AND AUTOMATION SOLUTIONS

AI and automation can take repetitive tasks off your team's plate, freeing people for higher-value work and improving operational efficiency.

01 AI-powered business tools

02 AI agents

03 Workflow automation

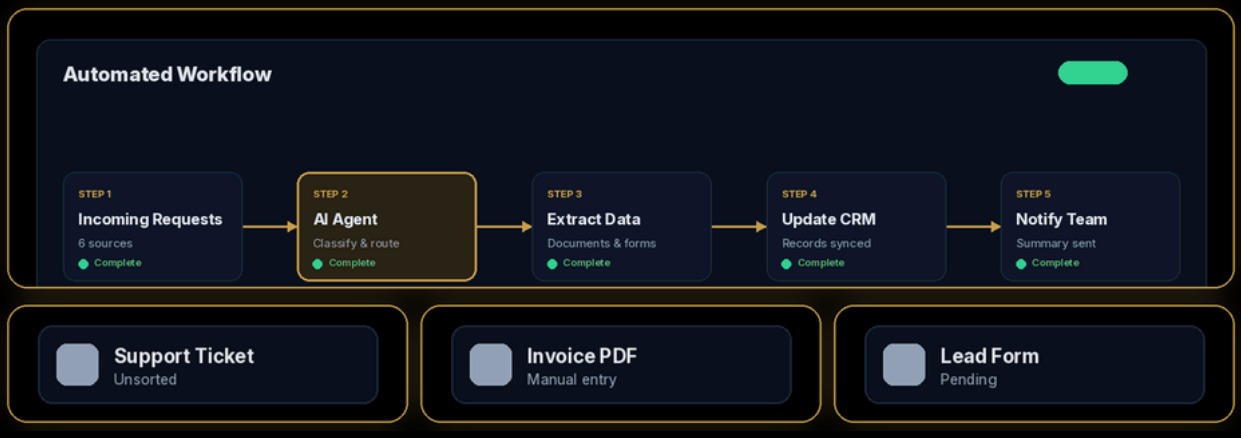

04 Intelligent assistants

05 AI-powered research

06 Document processing

07 Customer support automation

08 Business process automation

Availability of individual solutions is confirmed during project scoping.

E-COMMERCE AND DIGITAL BUSINESS

We help you set up and run an online store that is easy for customers to use and easy for your team to manage.

01 Online store development

02 E-commerce website design

03 Product catalog management

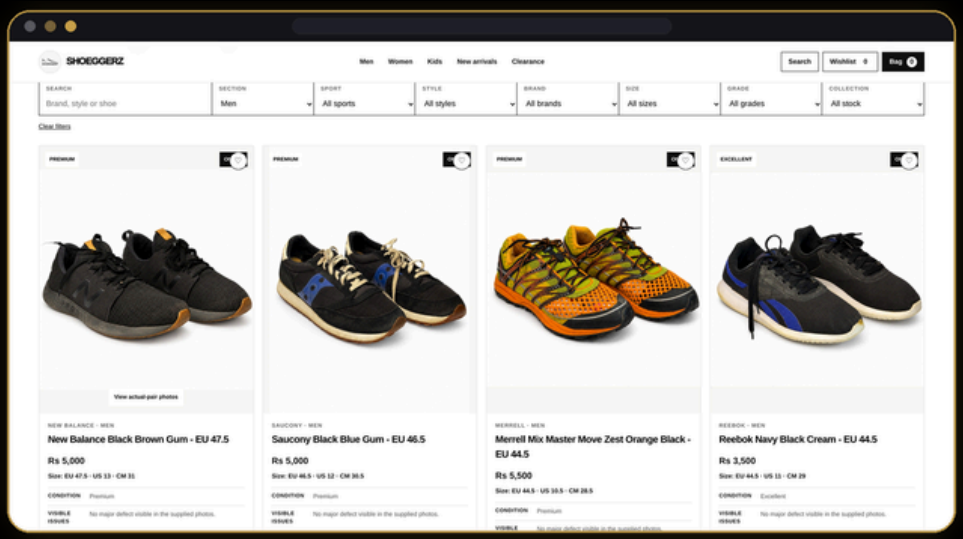

04 Payment gateway integrations

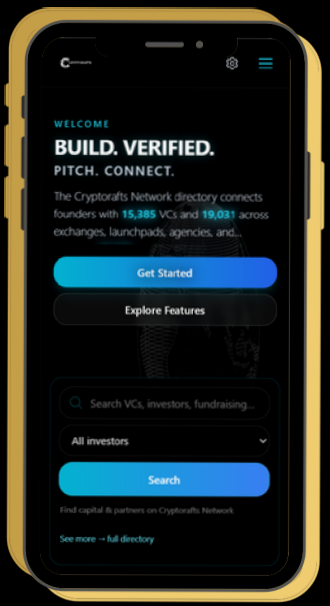

05 Order management

06 Inventory integrations

07 E-commerce automation

08 Store optimization

BLOCKCHAIN AND WEB3

Practical development and consulting for businesses building on blockchain technology, from smart contracts to wallet and data integrations.

01 Smart contract development

02 Decentralized applications

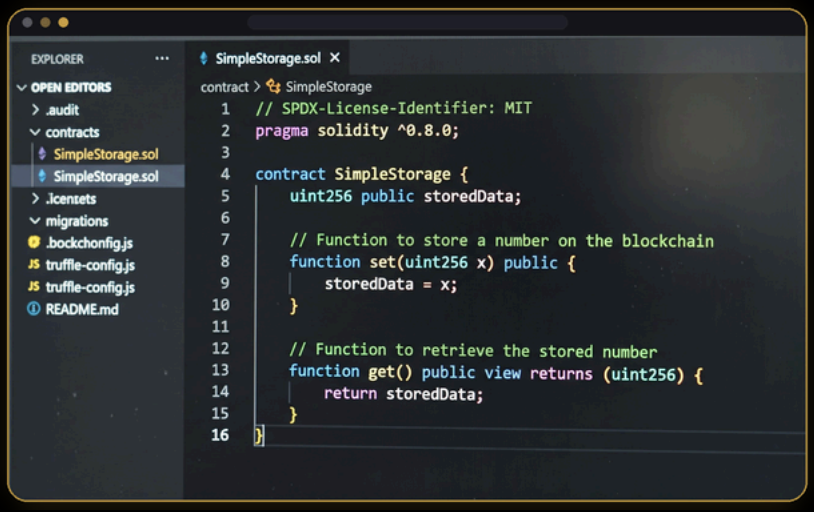

03 Blockchain integrations

04 Web3 application development

05 Wallet integrations

06 On-chain data integrations

07 Web3 infrastructure consulting

We make no claims of security audits, certifications or guaranteed investment outcomes.

SEO, GEO AND AEO

Three disciplines that support discoverability across search engines and AI-powered information systems.

SEO: Search Engine Optimization

Technical SEO, on-page optimization, indexing, structured data, internal linking and website performance.

GEO: Generative Engine Optimization

AI search visibility, entity optimization and structured content.

AEO: Answer Engine Optimization

Question-based content, direct answers, FAQs and semantic content structure.

We do not guarantee rankings, traffic or AI-generated citations.

MARKETING AND BRANDING

DIGITAL MARKETING AND BRANDING

Practical marketing and brand support to help businesses present themselves clearly and reach their audience.

01 Digital marketing strategy

02 Social media management

03 Content creation

04 Social media content calendars

05 Brand identity

06 UI/UX design

07 Digital campaign support

08 Marketing analytics
